We would be more than happy to advise you on your choices, but here some of our suggestions:

2START ENGLISH - NEW RELEASE!

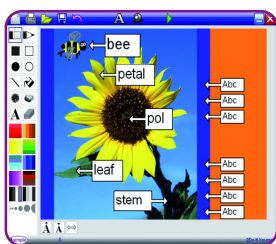

A program designed to support early learners and children who are new to English. The program features over a hundred activities for children to immerse themselves into using familiar environments such as the classroom and the park.

SUPERSTORY

2Create a SUPERSTORY, enables children to bring their own multimedia story creations to life through the use of exciting, versatile tools and templates.

Use 2Create a Superstory with voice recording to lip sync characters or narrate text, animations for each element on the page and even introduce Augmented Reality!

2DO IT YOURSELF

Now children (and teachers!) can create cross-curricular games, puzzles, quizzes and activities and share them with anyone, anywhere. There are plenty of opportunities for meaningful learning as they plan, design, create, publish and play.
