

FUNDRAISER FOR SCHOOLS

Community Licence Program

FED UP OF SELLING CHOCOLATES?

WANT A HEALTHIER, EDUCATIONAL AND SIMPLE(!) ALTERNATIVE?

Our Community Licence Program gives students full access to our award-winning software at home and at the same time raises funds for your school.

HOW DOES IT WORK?

If your school has a site licence of any of our programs, we can provide Home User download codes for just \$10 per student*. Your school can decide upon an appropriate charge to pass on to parents (eg \$20). The school keeps the difference as the fundraiser.

WHAT DOES THE SCHOOL HAVE TO DO?

- The school sends home a letter, provided by 2Simple, giving parents the opportunity to purchase 2simple programs at e.g. \$20 per program. The 2simple Home User RRP is \$66 so parents benefit from a very generous saving.
- Once the response are collated, the school places an order with 2Simple and pays for the licences. A single order is required.
- The school is then sent a letter for parents with a set of download codes, which are distributed out to students. For those students who do not have internet access, a master hard copy, to be held and distributed by the school, is also supplied.
- Students go to our website, enter their login details and download the software. They run the installation and have immediate access to the program.

2EASY? ... 2SIMPLE!
